Setting the Scene: Set Design & Prop Questions

**Time and Place**

1. When does your scene take place (time period, time of day)?

2. Where does your scene take place (and how much space is needed)?

3. What kind of materials, objects, tools/technology, etc., were used at that time?

**Lighting and Color**

1. What colors will your set be and how will the costumes look with those colors?

2. How will changes in lighting (and color) affect the mood of the sets.

3. Are there shadows or dark/hidden spaces for surprises?

**Characters and Important Items**

1. What important elements/props must be in your set (visuals, key props, etc.)?

2. How much do the actors move your set around?

3. How will the set and props be used to describe/define the characters?
